## PROFESSIONAL SUMMARY

MCA graduate with experience in backend development, containerization, and cloud technologies. Skilled in Linux, Docker, Git, REST APIs, SQL, and Python with a strong understanding of CI/CD pipelines, cloud deployment, and infrastructure automation. Passionate about DevOps practices, cloud-native applications, and building scalable deployment pipelines.

## EDUCATION

### PES University

*Master of Computer Applications (MCA)*

Bengaluru

2023 – 2025

### Yuvaraja's College

*Bachelor of Computer Applications (BCA)*

Mysuru

2020 – 2023

## EXPERIENCE

### Backend Developer Intern

Feb 2026 – Apr 2026

*Mexo Technologies*

Bengaluru

- Designed and implemented constraint-based scheduling logic using OptaPlanner to optimize machine allocation and production workflows
- Developed hard constraints for machine-category compatibility using enum-based domain models and refactored legacy string-based logic into type-safe enums, improving maintainability and reducing runtime errors
- Built unit and integration tests using ConstraintVerifier and Testcontainers to validate constraint behavior across edge cases and ensure application reliability
- Implemented fallback handling for null and incomplete data, improving solver stability and robustness in production scenarios
- Developed backend features using Spring Boot, JPA, and REST APIs while adding structured logging and JavaDoc documentation to enhance traceability, debugging, and code quality

### Full Stack Developer Intern

Jan 2025 – Dec 2025

*ChannelAce (PVL)*

- Developed full-stack web applications using React, FastAPI, and MySQL
- Designed and implemented RESTful APIs for secure communication between frontend and backend services
- Implemented JWT-based authentication and role-based access control (RBAC)
- Managed source code using Git and collaborated in an Agile development environment
- Containerized applications using Docker to streamline development and deployment workflows

## PROJECTS

### CI/CD Pipeline for Full-Stack Web Application | *Docker, GitHub Actions, AWS EC2, Nginx, FastAPI, React* 2026

- Developed and deployed a full-stack web application using FastAPI, React, and MySQL
- Containerized frontend and backend services using Docker and Docker Compose
- Configured a GitHub Actions CI/CD pipeline to automate application build, testing, and deployment
- Deployed the application on AWS EC2 (Ubuntu) and configured Nginx as a reverse proxy
- Monitored application logs, managed environment variables, and improved deployment reliability

### Finance Management System | *FastAPI, React, MySQL, JWT, Docker*

2025

- Developed a full-stack finance management platform using FastAPI and React
- Designed RESTful APIs for transaction management and financial record processing
- Implemented JWT authentication and Role-Based Access Control (RBAC) for secure user access
- Containerized the application using Docker for consistent development and deployment environments
- Optimized MySQL queries to improve backend performance and API response times

### Business Management Dashboard | *Python, React, MySQL*

2026

- Developed a full-stack web application for monitoring business operations and performance metrics
- Designed and optimized MySQL database schemas for efficient data storage and retrieval
- Built RESTful backend services using Python to support business workflows
- Implemented CRUD operations with secure database interactions
- Used Git for version control and followed modular development practices

## TECHNICAL SKILLS

---

**Programming Languages:** Python, Java, SQL, JavaScript, Bash

**Operating Systems:** Linux (Ubuntu), Windows

**DevOps Tools:** Docker, Docker Compose, Git, GitHub, GitHub Actions, CI/CD

**Cloud Platforms:** AWS (EC2, S3, IAM)

**Backend Technologies:** FastAPI, Spring Boot, REST APIs, JWT Authentication

**Databases:** MySQL, PostgreSQL

**Frontend:** React, HTML, CSS, JavaScript

**Web Servers:** Nginx

**Tools:** VS Code, Postman

## CERTIFICATIONS

---

- Introduction to IT and AWS Cloud – Amazon Web Services (Coursera)
- Data Analytics – PES University (Statistics, SQL, Python, Big Data, NLP)
- Diploma in Multilingual Computer Programming – C-DAC (PACE), Mysore
