

SHASHANK H R

Aspired Software developer

shashankrajesh07@gmail.com | +91 8277092835 | linkedin.com/in/shashank-h-r/

SUMMARY

Driven and detail-oriented with a robust foundation in software development, data analytics, and problem-solving. Aspiring to utilize my skills in IT infrastructure, data operations, and analytics to contribute to innovative software solutions.

SKILLS

- **Web Development:**
 - Familiar with **HTML, CSS, JavaScript, React, Angular, .NET**
 - **Programming and Development:**
 - Strong in **C, C++ (STL, smart pointers, OOP, templates)**
 - Basic understanding of **Shell Scripting, Python**
 - Familiar with **Version Control Systems (Git, GitHub)**
 - **Data Science (beginner-level):**
 - **Python, SQL, Machine Learning** basics
-

EDUCATION

PES University, Bengaluru	MCA(Masters in Computer Applications)	2023 - 2025
Yuvaraja's College, Mysuru	BCA (Bachelor's in Computer Applications)	2020 - 2023
Chaitra PU College, Mysuru	PUC (12th)	2020

CERTIFICATIONS

1. **Diploma in Multilingual Computer Programming (144 hrs) – C-DAC (PACE), Adithya Institute of Management & IT, Mysore | (Nov 2021 – Apr 2022)**
2. **Data Analytics – PES University (Statistics, SQL, Python, Big Data, NLP) | (Oct 2023 – Aug 2025)**

PROJECTS

1. AI-Based Bird and Drone Detection:

Description: Designed a real-time detection system using **YOLOv4/v5** to distinguish drones from birds in live video streams. Optimized for high precision and low latency with applications in surveillance and aviation safety.

Tools/Technologies: Python (YOLOv4/v5, Deep Learning), Flask, MySQL, HTML/CS

2. Crime Analysis Web Application:

Description: Built a web platform integrating **ML models** with **FastAPI** and **React** for crime data analysis. Supported predictive modeling, interactive dashboards, and data-driven insights for law enforcement.

Tools/Technologies: Python (ML), FastAPI, React.js, MySQL

3. Citizen Complaint Portal:

Description: Developed an **AI-** and **blockchain-**enabled portal for complaint registration and tracking. Integrated **NLP-based categorization**, **predictive analytics**, **geolocation services**, and blockchain for secure records.

Tools/Technologies: Python (AI/NLP), React.js, Node.js, MySQL, Blockchain

EXPERIENCE

Frontend Developer and AI Integrator, FranchiseKonnnect (March 2025 – Present):

Founded a startup supported by **CoCreate Ventures**, where I am building an **AI-powered platform** for the **franchise ecosystem**. My work involves developing intelligent tools that match **franchise owners** with suitable **business models** while also generating actionable **revenue insights**. This role combines **frontend development** with **AI integration** to create a seamless and **data-driven experience** for users.
